Management's Discussion & Analysis

Year ended December 31, 2021

This Management's Discussion & Analysis ("MD&A") of GFM Resources Limited (the "Company") is for the year ended December 31, 2021, and up to the date of this report, and it should be read together with the consolidated financial statements for the year ended December 31, 2021 and 2020, and the related notes (the "Financial Statements"), which are prepared in accordance with International Financial Reporting Standards ("IFRS").

Unless otherwise indicated, all amounts are expressed in Canadian dollars.

1.- Date of this report: March 16, 2022.

2.- Overall performance and events

a) Description of Business

GFM Resources Limited is an emerging mineral exploration company focused on the acquisition and development of high-potential exploration properties in Mexico and Latin America. Its shares are listed on the NEX Board of the TSX Venture Exchange ("TSX-V") under the symbol GFM.H. The Company was incorporated under the laws of British Columbia, Canada in 1987. During the year ended December 31, 2000, the Company continued its operation into the Yukon Territory, Canada, under the Business Corporation Act of Yukon, and registered as an extra-provincial company in British Columbia under the laws of British Columbia.

The Company's majority shareholder is Compañía Minera Autlán, S.A.B. de C.V. ("Autlan"), a Mexican company listed on the Mexican Stock Exchange - *Bolsa Mexicana de Valores* – and controlled by Mr. José Antonio Rivero Larrea, a director of the Company.

Autlan is active in manganese and ferroalloy operations in Mexico and owns a gold-producing mine in the state of Sonora, Mexico.

b) Financings

On November 17, 2017:

- The Company entered into a loan agreement (the "Loan Agreement") with Autlan with effect from August 1, 2017. Under the terms of the Loan Agreement, Autlan will make available to the Company a line of credit in up to USD \$2,000,000 per year. Advances made under the Loan Agreement bear annual simple interest calculated on the London Interbank Offered Rate ("LIBOR") plus 2%, calculated daily on the outstanding balance. The principal outstanding, together with any accrued but unpaid interest will become due and payable on demand, but such demand shall not to be made unless the Company has sufficient funds to repay the loan. There are no convertibility features on this Loan Agreement.

During the year ended December 31, 2021, the weighted-average interest rate was 2.1% (2020 – 2.52%).

Management's Discussion & Analysis

Year ended December 31, 2021

- The Company's Mexican subsidiary GFM Resources de Mexico, S.A. de C.V. (the "Subsidiary") entered into a separate loan agreement with Autlan (the "Subsidiary Agreement"), with retroactive effect from August 1, 2017. Under the terms of the Subsidiary Agreement, Autlan will make available to the Subsidiary a line of credit in up to MXN \$40,000,000 (approximately USD \$2,000,000) per year. Advances made under the Subsidiary Agreement bear annual simple interest calculated on the Bank of Mexico's inter-bank loan rate (TIIE for its acronym in Spanish – *Tasa de Interés Interbancaria de Equilibrio*) plus 2%, calculated daily on the outstanding balance. The Subsidiary Agreement has a term of two years, which can be extended upon agreement of the parties. There are no convertibility features on this Subsidiary Agreement. During year ended December 31, 2021, the weighted-average interest rate was 6.6% (2020 – 7.73%).

The following table summarizes the new loans with Autlan (expressed in Canadian dollars):

	Principal	Interest			Mexican IVA value-added tax (net)	Total

d) Mineral exploration

La Casita, Durango, Mexico

On May 13, 2008, the Company entered into a formal Purchase and Sale Agreement (the "Property Agreement") to acquire from Grupo Ferrominero, S.A. de C.V. ("Grupo", a company controlled by a director of the Company) the "La Casita" mineral property, formerly known as El Rodeo property ("the Acquisition") in the State of Durango, Mexico, consisting of three mineral claims.

The Company is keeping the property under care and maintenance, with related costs charged to the consolidated statement of income (loss). The conclusions from earlier exploration programs on the property indicated that further exploration would be merited. The Company is analyzing different possibilities for this property, as well as considering other mineral properties as possible acquisition targets.

Dany II, Guanajuato, Mexico

During the year ended December 31, 2019, the Company issued a bid to the Mexican mining authorities for the potential acquisition of the Dany II concession in the state of Guanajuato, Mexico. The Company's majority shareholder, Autlan, owns other concessions in this area. While the bid was successful, the Mexican Ministry of Mines in Mexico has not issued the concession title. Furthermore, there is no assurance that the Mexican Ministry of Mines will extend issue new concession titles, in which case the Company would attempt to request a refund. If the title is issued, the Company will add this concession to its portfolio of properties for potential exploration.

The following property examination costs and concession payments have been incurred:

	Expensed

Management's Discussion & Analysis

Year ended December 31, 2021

The significant amounts from the comparative periods were as follows:

- Administration and accounting consists of a monthly fee paid to a company controlled by the Chief Financial Officer of the Company at a monthly rate of \$5,000.
- Property examination decreased in comparison to the same period in the prior year, as surface rights for La Casita are the only concession fees paid.
- Directors' fees: a monthly stipend is paid to a director of the Company in his capacity of Chair of the Audit Committee. This fee was \$2,000 per month.
- Audit and legal fees are consistent with those paid during the equivalent period in 2020.
- Filing fees were lower during the current period. During the comparative period the increase was due to an additional fee paid to the TSX Venture Exchange in connection with a change of a director of the Company.
- Office expenses were lower during current period, as the Company incurred in lower bank service charges through its Mexican subsidiary.
- Interest related to the Loan Agreement and Subsidiary agreement are described above in Section 2(b). All interest accrued to December 31, 2021, has been repaid as at the date of this MD&A, as indicated on Section 3, above.
- Foreign exchange rates have been very volatile during the current period due to Covid-19, affecting both the foreign exchange loss and the exchange differences on translating foreign operations.
- During the last quarter of 2020, the Company wrote-off all amounts recoverable or creditable corresponding to Mexican value added tax ("IVA") and advances paid for income taxes due to uncertainty of the timing for their eventual recovery.

Management's Discussion & Analysis

Year ended December 31, 2021

The last quarters of 2021 and 2020 have very similar cash expenses. Interest expenses in 2021 are higher, as the principal amount carried on both the Loan Agreement and the Subsidiary Agreement keep growing.

Beginning in 2021, the write-down of Mexican value added taxes and income tax receivable are written down on a quarterly basis. In 2020 and before, these write-downs were done in the last quarter of the year, hence the higher figure for the comparable amount in 2020.

5.- Summary of quarterly results:

	Quarter ended (three-month figures) (\$)							
	31-Dec 2021	30-Sep 2021	30-Jun 2021	31-Mar 2021	31-Dec 2020	30-Sep 2020	30-Jun 2020	31-Mar 2020

Shareholders' deficiency	(1,145,573)	(1,101,155)	(1,041,138)	(984,482)	(959,740)	(877,901)	(830,409)	(801,236)
Cash dividends declared	Nil	Nil	Nil	Nil	Nil	Nil	Nil	Nil

Cash expenses in the last quarter of 2021 were consistent with those of the last quarter of 2020. The higher net loss in 2020 was due to the write-down of Mexican taxes taking place all in that quarter, rather than on a quarterly basis as was done in 2021.

While cash expenses during the third quarter of 2021 were consistent with those of the third quarter of 2020, the larger loss for the period is mostly driven by foreign exchange adjustments required to state in Canadian dollars amounts booked in either U.S. dollars for the Loan Agreement, or in Mexican pesos for amounts related to the Mexican subsidiary.

During the second quarter of 2021, the Company incurred the costs of preparing its annual general meeting of shareholders. The legal fees related to this annual meeting were higher than those during the June 2020 quarter. A credit note was provided for the third quarter of 2021 to correct this.

Activities during the first quarter of 2021 were lower as compared to the prior year's March 31 quarter.

During the final quarter of 2020, while general activities resulted in lower losses before taxes than in the prior year's last quarter, the write-off of Mexican taxes took place during the last quarter resulting in a higher loss for the period.

During the September 2020 quarter, the Company held its annual general meeting of shareholders, with associated costs.

During the March 2020 quarter the Company incurred higher expenses due to higher audit accruals and higher interest due to larger loans with Autlan (See Section 2(b), above).

6.- Liquidity and working capital

	December 31, 2021	December 31, 2020
	\$	\$
Cash and cash equivalents	39,547	4,320
Accounts receivable (Canadian GST)	789	1,190

Loans with related party	(1,169,621)	(942,379)
Working capital deficiency:	(1,145,573)	(959,740)

Given the present level of ongoing obligations and expenses, the Company must rely on the continued financial support from Autlan in order to meet its operational obligations for the foreseeable future.

7.- Capital resources

The Company's ability to raise additional funds from the equity markets will largely depend upon general market conditions, and the Company's ability to acquire new properties and to achieve certain exploration milestones. In order to attain these objectives and to meet its operational obligations, the Company will continue to rely on the financial support from Autlan. There can be no assurance the Company will be successful in achieving these goals and, accordingly, there is a material uncertainty casting significant doubt about the Company's ability to continue as a going concern.

Management's Discussion & Analysis

Year ended December 31, 2021

Covid-19 Pandemic

The COVID-19 pandemic has negatively impacted global financial markets and may continue to do so. The economic viability of the Company's business plan is impacted by its ability to obtain financing, and global economic conditions impact the general availability of financing through public and private debt and equity markets, as well as through other avenues.

In addition, as the health and safety of the Company's employees, contractors, visitors, and stakeholders are the Company's top priority, the Company will monitor developments with respect to COVID-19, both globally and within its operating jurisdictions, and will implement any such changes to its business as may be deemed appropriate to mitigate any potential impacts to its business and the stakeholders. Such changes may include, but are not limited to, temporary closures of the Company's site exploration activities or offices and deviations from the timing and nature of exploration plans.

The Company would take the necessary measures to renegotiate, if required, any contractual obligations with respect to potential exploration and other expenses. The Company will also examine the internal controls required for a secure operation of its computer and other electronic resources for operation from a remote location.

8.- Off-balance sheet arrangements

There are no off-balance sheet arrangements, and no contingent liabilities or other obligations.

9.- Transactions with related parties

Management is of the opinion that these transactions have occurred in the normal course of operations and they are measured at the exchange amount, being the amount of consideration established and agreed to by the transacting parties.

10.- Proposed transactions

There are no specific proposed transactions as at the date of this MD&A. The Company is examining several properties as potential acquisition targets.

11.- Critical accounting estimates and adoption of new accounting standards

Critical accounting estimates

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual results may differ from these estimates.

Adoption of new accounting standards

No new accounting standards or IFRS pronouncements were adopted during the year ended December 31, 2021.

Management's Discussion & Analysis

Year ended December 31, 2021

12.- Financial instruments

With the adoption of IFRS 9, the Company has classified cash, accounts receivables, accounts payable and accrued liabilities, value-added tax payable, due to related parties and loans with related party at amortized cost. At present, the Company does not have any FVTPL or FVTOCI financial assets.

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments are summarized below.

Currency Risk

As at December 31, 2021, all of the Company's cash and cash equivalents were held either in Canadian dollars, US dollars or Mexican pesos. The Company incurs expenditures in Canada and Mexico, and as such is exposed to currency risk associated with these costs.

A change in the value of the Mexican peso by 10% relative to the Canadian dollar would affect the Company's working capital by approximately \$38,000 (2020 - \$39,000), and its net loss for the year by approximately \$5,000 (2020 - \$6,000).

Interest rate and credit risk

The Company has cash balances and significant debt owed to a majority shareholder. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

The Company exposed to interest rate risk on its loans with a related party as detailed in Note 6. A change 1% change in interest rate would affect the interest by approximately \$5,300 based on the principal outstanding as at December 31, 2021.

Liquidity risk

The Company will depend on the advances provided by Autlan through the Loan Agreement and the Subsidiary Agreement. The liquidity risk relates to the low cash position and the dependence on these advances. See Note 1 to the Financial Statements for further discussion regarding liquidity risks.

12.- Management's responsibility over financial information

The Company's management is responsible for presentation and preparation of the quarterly and annual consolidated financial statements and the MD&A. These financial statements have been prepared in accordance with IFRS.

The MD&A has been prepared in accordance with the requirements of securities regulators, including National Instrument 51-102 of the Canadian Securities Administrators ("CSA").

The quarterly and annual consolidated financial statements and information in the MD&A necessarily include amounts based on informed judgments and estimates of the expected effects of current events and transactions with appropriate consideration to materiality. In addition, in preparing the consolidated financial information we must interpret the requirements described above, make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. The MD&A also includes information regarding the impact of current transactions and events,

sources of liquidity and capital resources, operating trends, risks and uncertainties. Actual results in the future may differ materially from our present assessment of this information because future events and circumstances may not occur as expected.

Disclosure Controls and Procedures

In connection with National Instrument 52-109 (Certificate of Disclosure in Issuer's Annual and Interim Filings) ("NI 52-109"), the Chief Executive Officer and Chief Financial Officer of the Company have filed a Venture Issuer Basic Certificate with respect to the financial information contained in the consolidated financial statements for the year ended December 31, 2021, and this accompanying MD&A (together, the "Annual Filings").

In contrast to the full certificate under NI 52-109, the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109. For further information, the reader should refer to the Venture Issuer Basic Certificates filed by the Company with the Annual Filings on SEDAR at www.sedar.com.

13.- Risk factors.

Development-stage mineral exploration companies face a variety of risks and, while unable to eliminate all of them, the Company aims at managing and reducing such risks as much as possible.

Few exploration projects successfully achieve development due to factors that cannot be predicted or anticipated, and even one such factor may result in the economic viability of a project being detrimentally impacted such that it is neither feasible nor practical to proceed. The Company closely monitors its activities and those factors that could impact them and employs experienced consulting to assist in its risk management and to make timely adequate decisions.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims, as well as the potential for problems arising from the frequently ambiguous conveyance history characteristic of many mineral properties. Regarding the properties under the option agreement described in Section 2, Autlan has provided reasonable assurance that its mineral properties' titles are in good standing.

The price of the commodities being explored is also a significant risk factor, as a substantial decline in their price could result in a decision to abandon a specific project.

Environmental laws and regulation could also impact the viability of a project. The Company has ensured that it has complied with these regulations, but there can be changes in legislation outside the Company's control that could also add a risk factor to a project.

At the present time, the Company has no rights to a property of merit, and therefore its ability to raise capital is limited, having to rely on funding provided by Autlan to meet its obligations, including the search for a property of merit.

Finally, operating in a specific country has legal, political and currency risk that must be carefully considered to ensure their level is commensurate to the Company's assessment of the project.

14.- Forward-looking statements

Certain statements made and information contained in this MD&A and elsewhere constitute "forward-looking information" within the meaning of the Ontario Securities Act. Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking statements, including, without limitation, risks and uncertainties relating to the interpretation of drill results and the estimation of mineral resources, the geology, grade and continuity of mineral deposits, the possibility that future exploration, development results will not be consistent with the Company's expectations, accidents, equipment breakdowns, title matters and surface access, labour disputes, the potential for delays in exploration activities, the potential for unexpected costs and expenses, commodity price fluctuations, currency fluctuations, failure to obtain adequate financing on a timely basis and other risks and uncertainties, including those described under Risk Factors in each MD&A.

In addition, forward-looking information is based on various assumptions including, without limitation, the expectations and beliefs of management, the assumed long-term price of gold, that the Company will receive required permits and access to surface rights, that the Company can access financing, appropriate equipment, and sufficient labour and that the political environment within Mexico will continue to support the development of environmentally safe mining projects. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements.
